

Please, as a mother who is teaching my child that good information is needed to make wise decisions, I urge you to retain the current public broadcasting rules on ownership. I expect that those holding positions of power and trust, who are entrusted with making decisions for the common good of the public, will do so. I do not believe the interests of private corporations represent the interest of the public. I oppose taking a vote that leads to more media consolidation at the detriment of the public who own the airwaves.
